SCOPE OF REGISTRATION RENEWAL 0C9895.5

The scope of this registration renewal are the RL Series Relief Valve valves listed on pages 40 through 43 of Catalog 4135-CV, Check Valves, Filters, and Relief Valves, dated December 2010. These are the same valves and materials as were covered by the existing registration. The design of these valves has not changed since the original registration. A change was made to previous catalog 4131-RL (April 2005). The contents of that catalog were incorporated in a consolidated line catalog (4135-CV) as listed above.

These valves are not to be used as primary pressure relief devices for overpressure protection.
