Service Request Type.: BPV-National BC
Service Request No.: 1613518
Your Reference No.: RL SERIES RELIEF VALVES - RENEW CRN 0C9895.5
Registered to.: PARKER HANNIFIN CANADA INC

Dear SUSAN TURNER,

Please find enclosed the original response from BC, registered under the CRN No.: 0C9895.51.

As all jurisdictional fees are handled by the Technical Standards and Safety Authority (TSSA), you do not pay any jurisdictions directly.

Should you have any questions or require further assistance, I will be happy to assist you. For general enquiries, please contact a Customer Service Advisor at 1.877.682.TSSA (8772) or e-mail customerservices@tssa.org. When contacting TSSA regarding this file, please refer to the Service Request number provided above.

Yours truly,

Tanya Francis

Re: Application for Design Registration

The design, as detailed in your, TSSA Service Request No: 1613518, for a Fitting is accepted for registration as follows:

Registered To: PARKER HANNIFIN
INSTRUMENTATION

CRN: 0C9895.51

MAWT: 400 deg F

MAWP: 400 psig

Drawing #: Catalog 4135-CV, Dec 2010

Conditions Of Registration:

Registration renewal of RL Series Relief Valves as per scope of registration sheet.

This design was registered based on a technical review performed by the province of initial registration in accordance with the Association of Chief Inspectors policy on reciprocal recognition of design review.

Reviewer's Notes:

As required by CSA B51 4.2.1, this registration expires on March 18, 2025. This CRN is valid until the expiry date as long as the Manufacturer maintains a valid quality control program verified by an acceptable third-party agency until that date. Should the certification of the quality control program lapse before the expiry date, this registration shall become void.

Contact me if you have any questions. The invoice for registration will be forwarded under separate cover.

December 16, 2014

SCOPE OF REGISTRATION RENEWAL 0C9895.5

The scope of this registration renewal are the RL Series Relief Valve valves listed on pages 40 through 43 of Catalog 4135-CV, Check Valves, Filters, and Relief Valves, dated December 2010. These are the same valves and materials as were covered by the existing registration. The design of these valves has not changed since the original registration. A change was made to previous catalog 4131-RL (April 2005). The contents of that catalog were incorporated in a consolidated line catalog (4135-CV) as listed above.

These valves are not to be used as primary pressure relief devices for overpressure protection.
