Password: (case-sensitive)

[Log on help](#) [Don't know your password?](#)

Key your Web ID (also known as User ID)

Key your Password

Click Log on

You are now logged in and will be brought to your home page of PH Connect

The screenshot displays the PH Connect user interface. At the top, the logo "PHconnect" is shown in orange and white. Below it, a navigation bar contains "home", "customer resources", and "engineering tools". The main content area is divided into two columns. The left column, titled "Welcome, Catherine Laskero", features a "My Profile" icon and links for "Customer Quick Reference", "Rearrange My Page Layout", "Update My Profile", and "Log Off". It also includes the website URLs "www.parker.com" and "www.phstock.com". The right column lists four main navigation options, each with a home icon: "C.A.R.E.S." (with a login link), "Cylinder Serial Number Lookup" (with a link to "Serial Number Lookup"), "Distributor DAS" (with a link to "Distributor DAS"), and "EDI Administration" (with a link to "EDI Administration" and a description of its function).

Component: Cushion Head (Code: No Cushion Head)

Component: Double Rod (Code: Single Rod)

Buttons: Add to Order Go To Catalog Search, View Summary, CPN

More than complete cylinders can be configured with unique CPN and list price.... The PH Connect Configurator needs to be used for any configurable service part.

Steps:

- 1) Configure the cylinder*
- 2) Click on CPN and generate a number(or if you already have the CPN you can enter it without configuring it again*
- 3) Configurator attributes will be locked down and you will not be able to edit*
- 4) Choose from configured service part; cylinder head, cap, piston and rod assembly, cylinder body or tie rod. All the same selections for the cylinder will remain the same for the service part. The Configured Service Part number assigned will have a unique prefix as you can see from diagram above, but the suffix will be the same as the cylinder*

Configurator as Quote Portal

Consult Manufacturer

- The configurator is the required quote portal for all configured cylinders and configured service parts.
- Use the following email box for quoting custom kits, custom cylinders, accessories, obsolete products, etc – cylpricing@parker.com

No longer use the Regional Plant mailbox for quotes. Regional Plant Mailbox will still be active for orders, expedites, ATRs, etc

- If a cylinder or service part does not generate a list price based on the selections you have chosen, special instructions you have noted, or due to a quote needed for per a dwg, “Consult Manufacturer” will be displayed under List Price
- The next few slides will demonstrate how this new quote portal will work

1) Configure cylinder and “Consult Manufacturer” is displayed

For cylinder options not listed, please consult factory.

TO START THE QUOTE PROCESS, THE CONSULT MANUFACTURER LINK MUST BE CLICKED

4) Click on Consult Manufacturer and Request Special Price box will appear, beginning the quote process

Request Special Price

First Name: Laskero

Last Name: Cathy

Email: cathy.laskero@parker.com

Phone Number: 847-294-2645

Company:

Service Component Codes: CYL;

Serial Number: AA123456A

Comment:

Notify Emails:

Phone # required

Special Component Code Selection

Code

- CYL
- HD
- CP
- PR
- CB
- TRS
- TR

5) Click on 'Select Codes' if you are looking for quote on replacement service parts also

Click on specific part and click ok

6) Critical - If this is replacement business please enter serial number in this box

7) If you require service kits for *special* cylinder, put note in comment field so you do not have to create another email request to CYLPricing. We have the ‘Seal Kit Program’ that will supply kits for majority of cylinders – please use this program

8) Enter quantity.

9) If quote is for agent or ship to deal customer it is very important that the accurate box is checked so we do not have to do revisions.

10) Click on Request Price and you will be advised that your request is being processed

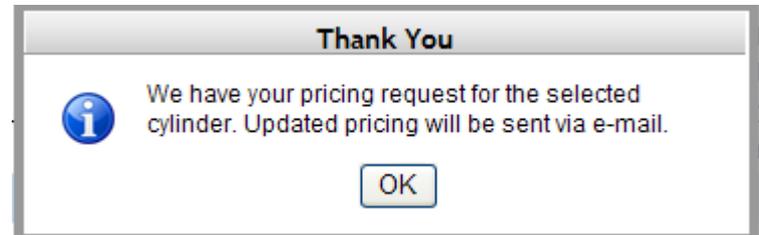

The image shows two overlapping software windows. The 'Request Special Price' window is the primary focus, containing the following fields and options:

- First Name: Cathy
- Last Name: Laskero
- Email: cathy.laskero@parker.com
- Phone Number: 8472942645
- Company: Michigan Fluid Power
- Service Component Codes: CYL; (with a 'Select codes' button)
- Serial Number: (empty field)
- Comment: (empty text area)
- Quantity: ex(1,4)
- Agent name/Number: YES (selected) NO
- Ship to name/Number: YES (selected) NO
- A 'Request Price' button at the bottom right.

The 'Special Component Code Selection' window is open to the right, showing a list of codes with checkboxes:

| Special Component Code Selection | |
|----------------------------------|------|
| | Code |
| <input type="checkbox"/> | CYL |
| <input type="checkbox"/> | HD |
| <input type="checkbox"/> | CP |
| <input type="checkbox"/> | PR |
| <input type="checkbox"/> | CB |
| <input type="checkbox"/> | TR |

An 'Ok' button is located at the bottom of this window. Two red arrows point from the 'Request Price' button in the first window to the 'Thank You' dialog box below.

11) An email will be sent to you with reference

Price is requested for 13759

Order Entry

Entering Orders

- *PH Connect will be the preferred electronic form of order entry.*
- *Cylinder Part Number will be required to enter orders for cylinders and configured service parts*
- *Orders entered via quotes, for an agent customer or for a special SPA for ship to customer, will flow through our mainframe correctly, giving you accurate pricing on your acknowledgment and invoice*

Option 1: Customer Resources/Place Order

The screenshot shows the PHconnect website interface. At the top right, it says "Logged In: Catherine L". Below this are links for "order cart (1)", "log off", "portal agreement", and "update my". The main navigation bar includes "home", "customer resources", and "engineering tools". On the left, there is a "Welcome" sidebar with a "My Profile" icon and a list of links: account status, catalog search, order from quotes, order templates, place an order, product information, phast, request for quote, review your orders, and update profile. The main content area features several blue banners: "C.A.R.E.S." with a login link, "Cylinder Serial Number Lookup" with a link to "Serial Number Lookup", "Distributor DAS" with a link to "Distributor DAS", and "My Forums" with a list of forums including "A & H Distributor Forum", "Automation Group", and "Other forums...". There are also banners for "EDI Administration" and "Value Management System".

Quick Order Entry

Do you want to enter quote numbers? (Allows access to Quote Number fields)

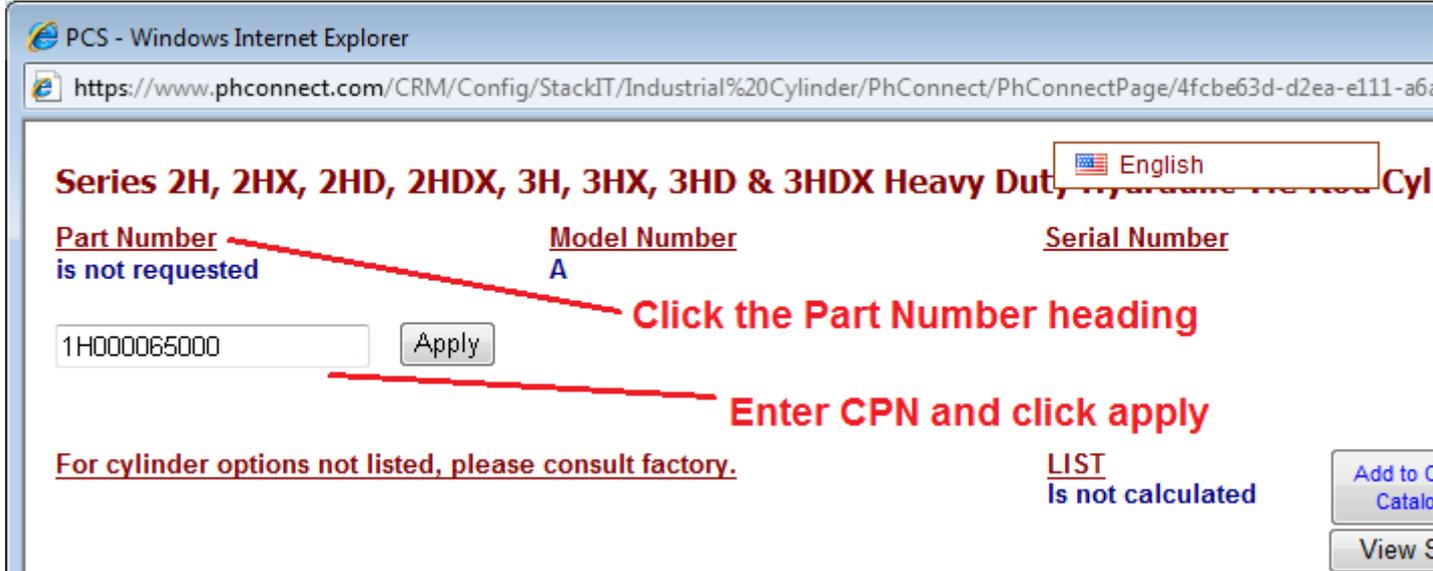

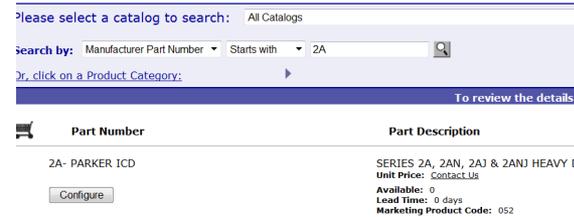

| Part Type | Part | Quantity | Request Date | Default Request Date |
|--------------------------|-------------|----------|--------------|----------------------|
| Manufacturer Part Number | 1H000065000 | 1 | 04/20/2015 | mm/dd/yyyy |
| | | | mm/dd/yyyy | |
| | | | mm/dd/yyyy | |

There is no need to use the configurator. Enter CPN, quantity and request date.

Takes 24 hours to get a CPN into PMCS catalogs in PH Connect

Option 2: Customer Resources/Catalog Search

Go back into configurator

Details will come up and you can Add To Order

You will be brought back to PH Connect screen and the part you just configured will display in your shopping cart . From here you can change the order quantity and enter a request date– the date you want Parker to ship.
