Re: Fittings Registration

The Province of Saskatchewan will be participating with Quebec, Manitoba and the Canadian Standards Association (CSA) in a pilot project for the registration of fittings. We will recognize registrations done by CSA and accept such fittings for use in Saskatchewan.

The letters CSA will be applied as a prefix to the CRN to indicate which fittings have been registered in this manner. I would appreciate if you could inform your clients of this additional marking requirement.

You may also inform your clients that fittings registered by CSA are accepted for use in Saskatchewan.

Yours truly,

N. Surtees, P. Eng.

*Note when fittings with the same connection, hex and drill size are listed, only one test is required per SAE J514.
Ex. 4 C6BU has the same connections, hex and drill size as a 4 S6BU and 4 R6BU and will achieve the same results.

This product will be a part of phase 2 if test data for size 8 tubing is needed.
